

Rules and Regulations – What Would Darwin Do (WWDD)

Team WWDD 2021

June 2021

Eligibility and registration-

- WWDD 2021 will be conducted entirely online.
- Candidates from only Class 9th-12th can take part in this event. This is a team event wherein there can be 1-3 members in each team.
- During the time of registration, the teams must agree to abide by the rules and regulations of the competition and declare that the details given by the teams are true to the best of their knowledge and that they meet the eligibility criterion.

General rules-

- WWDD 2021 will be conducted in 2 rounds- prelims and finals.
- The prelims will be conducted on **15th June 2021** through an online portal where teams can discuss the correct choice among themselves and submit within a stipulated time (which will be announced on the day of the prelims).
- The prelims will have a majority of objective questions with few subjective ones where the teams will be required to type out the answers in the space provided. The objective questions will all be single answer type questions.
- Ensure access to internet with good bandwidth, since the questions may require you to play sounds, display picture and videos etc.
- Each team will be required to provide a team name, the details of each team member along with their contact information and their school affiliation during their registration.
- It is sufficient for only one team member to fill the form and submit after taking a decision with the team mates which can be among themselves. If we receive multiple submissions from the same team and each member submits different answers, the lowest score of all of the scores will be taken.
- The probability of having to deal with network issues is reduced in the case where there are more than 1 member in a team (since only one submission per team is required). In the case of a 1 membered team, the team will be given few extra minutes to take a screenshot of the answers and send it via mail to the organisers whose details will be provided. Adequate extra time will be given to accommodate these discrepancies, but we hope for a smooth sailing wherein all the answers are submitted via the form itself.
- The teams selected from the prelims will move on to the final round which will take place during 29th July- 1st august. The exact date will be announced well in advance, along with announcing the teams that have qualified.

- Details about the logistics of the final round will be announced on the website well in advance. So do keep checking the website for any updates or changes in the event specifics.
- Any change in rules will be announced and made clear to the teams. The organisers reserved the right to change the rules and regulations at any point of time. In case of any conflict, the organisers' decision is final and binding.
- In the case of any ties in the prelims, decision will be taken depending on the total number of teams that register.
